

Click to Return to Selection [Reset Information: It is best for a driver to reset driving hours when returning to work after 34 hour break. Sleeper Berth hours can be counted as part of the break as long as the 34 hours are consecutive. Before resetting driver hours. 1. The driver must show on the paper logs that this action has been taken. 2. Always check and make sure the driver has take at least 34 consecutive hours off. You may have to check and count the hours OFF DUTY from the previous day to get 34 hours Off Duty. Place your cursor on the column headers with Red Triangles for more information. Click here to know more about resets.](#)

Monday 12/04/06 18:55 **YTD Total Logged Miles**

Date	Below are brief explanations of when there is a possible violation.	1. OFF Duty Hours	2. Sleeper Berth Hours	3. Driving Hours	4. On Duty (NOT DRIVING)	5. Hours Available Today	6. 8 Day Totals	7. Miles Logged	8. Speed Logged	9. Resets are only available if 34 consecutive hours Off Duty. Sleeper hours count towards the 34	10. Total Hours Today	Remarks
