

## The DB5-HD: Ultimate Commercial Grade Road Recording for Trucks and RV

Part Number: DB5-HD (Single or Dual) Dash Cam with wireless viewing on your mobile device (Android/ iOS)

- **Up to Ultra-High Resolution (2880x2160 FULL 4K Sony Lens with WDR!) video and audio recording** (24 - 120 fps!) 170° wide view main cam with H.264 compression MP4. (Also is a **12 MP still camera** when needed!)
- **Optional 1080P Interior/Exterior 2<sup>nd</sup> Camera:** A second optional waterproof camera includes 20 feet of cable for mirror or rear mounting, or record the interior driver cabin, for example. (140° / 1080p / Sony / ip67)
- **Eight video size modes!** **2880x2160** (UHD-4K, 24 FPS), **2560x1440** (QHD-2K, 30 FPS), **1920x1080** (FHD, 60 FPS), **1920x1080** (FHD, 30 FPS), **1920x1080 X 2** (FHD, 30 FPS), **1280x720** (HD-720P, 120 FPS), **1280x720** (HD-720P, 60 FPS), and **1280x720** (HD-720P, 30 FPS)
- **4.0" vivid color IPS video screen built-in with on-screen menus and large, rugged buttons**
- **Seamless video:** Record 3, 5, or 10-minute segments and have it loop over when card is full (see chart)
- **Time, date and GPS Location** are optionally stamped on the video itself.
- **Recording starts automatically** when you turn on power to the vehicle (12V socket) and turns off when you remove power unless you plug it into an "always on" socket in your rig.
- Records on a **Micro SD memory card** (64GB card included, expandable up to 256 GB!) Note: Higher Quality and higher frame-rate settings use up space more quickly.
- Built-in **rechargeable battery** allows for up to about 20 - 30 minutes of recording when unplugged.
- **Android/ iOS app allows you to remotely connect to the camera and playback or download your videos** (Playback and download can also be done on a computer using the included USB Cable.)
- **G-Shock emergency sensor recording.** (English, French, Spanish, Russian languages supported)
- **Rugged, suction style mounting** for easy removal and relocation. (custom mounts available)
